MESSAGE FROM THE CEO & PRESIDENT

I couldn't have chosen a better plan than Miami to open the first Istituto Marangoni of the Americas. This city lives and breathes energy, colors, and mixed cultures.

As Istituto Marangoni Miami, we bring the Italian style of teaching fashion into the American systems. This merge creates a cultural synergy that can only be found at the Miami School of Fashion.

By combining the Italian way of teaching, which is very connected to hand-crafting, with the American way of doing business, we encourage our students to develop an entrepreneurial mindset where they feel confident to transform their creative ideas into real, tangible projects.

I see Miami as one of the most dynamic and culturally enriched cities in the world. Here, we have all the elements to make it the next Fashion Hub, and this is already happening.

ACADEMIC POLICIES

ACADEMIC YEAR

An academic year is defined as three consecutive semesters and is comprised of 45 weeks of instruction.

SEMESTER CREDIT SYSTEM

Istituto Marangoni Miami operates on a semester credit system and offers three semester starts per calendar year. Each semester is 15 weeks in length.

ACADEMIC INTEGRITY POLICY

Integrity is essential to an educational institution and to the entire educational experience. Individual students, faculty, and staff members must affirm this quality. The importance of integrity and ethics is an integral part of life at Istituto Marangoni Miami.

The Academic Integrity Policy requires that all members of the School conduct themselves honestly in all endeavors. Therefore, cheating, plagiarism and other acts contrary to academic integrity are unacceptable and will not be tolerated at Istituto Marangoni Miami. Appropriate action will be taken against dishonest students, faculty, staff, and administrators.

Self-expression is also an essential component to a rewarding and fulfilling educational experience. A school setting is an ideal forum for self-expression, voicing disagreement and challenging accepted traditions. However, while the goal of the School is to educate and encourage, it also must curtail behavior that adversely affects others. As such, Istituto Marangoni Miami's policies require that such self-expression, although encouraged, must be delivered in a civil manner, exhibiting respect for others at all times.

Academic dishonesty cheating and plagiarism

Istituto Marangoni Miami refers to the Turnitin Online Platform. Turnitin's Originality Check helps instructors check students' work for improper citation or potential plagiarism by comparing it against the world's most accurate text comparison database. All student work will be verified for authenticity before it is submitted to the professor. Cheating is defined as the attempt, successful or not, to give or obtain aid and/or information by illicit means in meeting any academic requirements, including examinations. Cheating includes falsifying reports and documents. Plagiarism is defined as the use, without proper acknowledgment, of the ideas, phrases, sentences, or larger units of discourse from another writer or speaker. Plagiarism includes the unauthorized copying of software and the violation of copyright laws.

An incident of cheating or plagiarism upon which a faculty member may take action will be an event which the faculty member witnesses or has written evidence to support. A faculty member must observe this evidence directly and may not take action solely on the report of another party.

Academic misconduct refers to any form of academic cheating and collusion. Examples include:

- Plagiarism (presenting the work of others as if it were your own).
- Submitting assignments downloaded from the internet.
- Commissioning another person to produce a piece of work without acknowledgement.
- Cheating in examinations.
- Colluding with others to submit work (including friends or family).
- Plagiarism is the most common form of cheating and is defined as stealing another person's ideas and presenting them as though they were your own. Some examples include:
 - Copying from a textbook, journal article, thesis, essay or website without providing adequate reference to the author.
 - Reproducing original artwork, designs, film, sound or performance and presenting them as though they were your own.
 - Copying someone else's program, database, webpage or multimedia presentation without acknowledging their work.

Throughout studies, students will be encouraged to reference the work of other artists, writers, designers or performers.

Faculty will expect to find reference to the sources of your ideas in supporting documentation, such as sketchbooks or initial drafts. This is an essential and valuable part of your education. As long as the source of the ideas is acknowledged, this is not plagiarism. There are different ways of doing this, for example:

- In an essay or assignment, when quoting another person's words "put their words in quotation marks" and properly reference the author within the text and in the bibliography.
- In computer software show where the information has come from in the acknowledgements or credits, e.g. 'program design - A. Brown', or 'graphics - J. Smith'.
- When using an artifact, put a caption against the object, e.g. 'original photograph by Cartier-Bresson'.
- If presenting an original piece of work based on an existing design or work of art, quote the source, e.g. 'after Rodin', 'after Eckersley'.
- If using a strategy of 'appropriation' (i.e. the deliberate and conscious use of the style and images of another artist) make sure you tell your Faculty what you are doing and why and acknowledge the strategy when submitting work for assessment.
- In a group project make sure all the members of the group are listed. If individuals undertake specific work within the project, make sure that this is acknowledged.
- In examinations do not copy another person's work.
- Do not quote passages from a textbook or journal without acknowledging the source.

Failure to acknowledge the use of another person's ideas in your work may be considered a breach of the School's Academic Regulations; it may also constitute a breach of intellectual property rights, e.g. copyright. Such an offense is likely to lead to failure of that assignment and/or unit and serious or repeated offenses may lead to failure of the whole stage of the course, suspension or even expulsion. In addition, a breach of copyright may lead to legal action.

Procedures for Handling Cheating and Plagiarism

Any faculty member discovering a case of suspected cheating or plagiarism should make a responsible effort to confront the student with the evidence within five (5) working days. If the student can explain the incident to the satisfaction of the faculty member, no further action is warranted.

If the student denies cheating and the faculty member continues to believe cheating has occurred, the faculty member will send an Academic Dishonesty Form to the Program Leader (or academic leadership) of the appropriate area of study. This form is available in the office of the Academic Leadership. The Academic Leadership will hold a hearing in which the faculty member will present the evidence against the student, the student will also be present at the meeting. The Academic Leadership will decide who, in addition to the above, may be present at the hearing. The Academic Leadership will determine whether or not the evidence indicates that cheating/plagiarism has taken place.

If the student has admitted or has been found guilty of cheating or plagiarism, the following records will be kept:

- The faculty member will send an Academic Dishonesty Form to the Academic Leadership.
- The Academic Leadership will inform the student in writing that these forms have been sent.
- Records of the incident will be kept in the Office of the Academic Leadership.

This record shall be destroyed upon graduation or other forms of separation from the School if no further incidents of cheating or plagiarism occur.

If the records, in the Office of the Academic Leadership, indicate that the student has committed two offenses, both incidents become part of the student's permanent academic record.

The faculty member shall decide how the student will be graded for the course in which cheating, or plagiarism occurred. The student may be required to resubmit the assignment or take a new examination. The student may receive a failing grade on the assignment or examination in question. The student may receive a failing grade for the course.

For a second or subsequent offense, the student shall be subject to suspension or dismissal from Istituto Marangoni Miami.

The student may appeal any of the above decisions in writing to the Academic Leadership within ten (10) working days.

Student Responsibilities Concerning Academic Dishonesty

Students are responsible for knowing the policies regarding cheating and plagiarism and the penalties for such behavior. Failure of an individual faculty member to remind the student as to what constitutes cheating and plagiarism does not relieve the student of this responsibility. Students must take care not to provide opportunities for others to cheat. Students must inform the faculty member if cheating or plagiarism is taking place.

Course Attendance Policy

- Student Responsibility: Students are expected to attend and actively participate in all registered classes and sessions. They must be aware of and comply with each course's attendance policy as outlined by the respective instructor in the course syllabus provided on the first day of class.
- Instructor Responsibility: Instructors hold the right to set an attendance policy for their courses. They are required to record attendance and can factor in absences when determining grades, as per their course policy.
- Communication: Students must reach out to their instructors for any questions or clarification on course requirements, assignments, exams, attendance records, progress, or grades.
- Content Responsibility: Regardless of attendance, students are responsible for understanding all class content and completing all assignments, even if missed.
- Make-up Work: Students may be given an opportunity to make up for the work missed during their absence.
- Notification: In case of foreseeable absences, students should inform their instructor in writing in advance. If the missed content can't be replicated, the instructor may assign equivalent alternative coursework.

Istituto Marangoni Miami defines exceptional factors as a serious illness or other exceptional and unpredictable cause of absence that may generate a negative effect on the student's academic performance concerning his/her attendance or evaluation.

Examples of Exceptional Factors:

- Serious illness, injury, or hospitalization of the student (official medical documentation required)
- Bereavement (immediate family member)
- Victim of a crime or mandatory court attendance

Daily life presents minor difficulties that student have to cope with during his/her studies. This does not excuse you from missing class.

- Daily transportation problems
- Non-availability of books or other resources
- Loss of coursework
- Financial problems
- Moving one's home
- Family celebrations, medical appointments or other events that the student can plan in advance
- Work Commitments
- Mis-interpretation of the class or exam timetable
- Colds, headaches and other minor conditions

Leave of Absence

Students are expected to maintain continuous enrollment from the time they start their program until graduation. Students should consult with the Academic Leadership if a situation arises requiring them to interrupt their education to take a leave of absence. A student could interrupt their education by either withdrawing from the college or taking a Leave of Absence (LOA) for one semester. If there is a reasonable expectation the student will return when the LOA expires and after the request form has been submitted along with the supporting documentation, a LOA may be granted for the following reasons:

- Medical;
- Military;
- Death of an immediate family member; or
- Illness of a family member (spouse, child or parent)

A student requesting a LOA needs to be aware that:

1. A leave of absence has no effect on the student's standards of progress. However, a leave of absence will have an effect on financial assistance and will extend the program completion time.
2. A student may start the process to request a LOA prior to the semester the student is requesting the leave. The request for the LOA should be received and approved prior to the last day of the Drop/Add period of the semester the student is requesting the leave.
3. Students who follow the college process and whose leave is approved in accordance with the policy need not apply for re-admission when they return. Re-admission may be denied based on crimes or other serious misconduct occurring during the leave that would have been grounds for suspension or expulsion had the student engaged in the conduct while enrolled.
4. Only one leave of absence may be granted to a student in a 12-month period and cannot exceed 180 days during a consecutive 12-month time frame.
5. A student returning from an LOA must attend classes within the first 7 (seven) days of the semester of return.

Failure to return from an approved leave of absence will result in withdrawal from the school.

Less than half time students are those who are registered for a minimum of 1 credit and a maximum of 3 credits.

CREDIT HOUR DEFINITION

Istituto Marangoni Miami awards credit in the form of, a credit hour, as defined as an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each class for the duration of the semester; or
2. At least an equivalent amount of work as required by academic standards to meet compliance of other academic activities as established by the institution including laboratory work, internships, practical, studio work, presentations, research, and other academic work leading to the award of credit hour completion.

One semester credit hour equals

15 Classroom hours of lecture OR 30 Laboratory hours OR

45 hours of practicum.

The formula for calculating the number of semester credit hours for each course is: (hours of lecture/15) + (hours of lab/30) + (hours of practicum/45).

ADD/DROP PERIOD

Istituto Marangoni Miami has established an Add/Drop Period which is defined as one week (five scheduled class days) from the first day of the semester. The Add/Drop Period is published on the Academic Calendar.

Students may make schedule changes during the Add/Drop Period by completing an Add/Drop Request Form and filing it with the Academic Office during the Add/Drop period. Following the last day of the Add/Drop Period, adding and changing courses may have financial implications. Courses that are dropped during the drop/add period will be removed from the student transcript. Please see the Academic Calendar for specific dates and the Refund Policy for more information.

GRADING SCALE AND POLICY

The grading scale for academic performance appears below. Unless otherwise indicated, each grade earned is calculated into the student's cumulative grade point average (CGPA) and the credits assigned for the course taken are included in the calculation of total credit hours attempted.

Grading system

the grading system for academic performance appears on the following page. Unless otherwise indicated, each grade earned is calculated into the student's cumulative grade point average (CGPA) and the credits assigned for the course taken are included in the calculation of total credit hours attempted.

Please note that the highest letter Grade a student may receive is an A.

Letter Grade	Numerical Value	GPA
A	94 -100%	4
A-	90 - 93%	3.7
B+	87 - 89%	3.33
B	83 - 86%	3
B-	80 - 82%	2.7
C+	77 -79%	2.3
C	73 - 76%	2
C-	70 - 72%	1.7
D+	67 - 69%	1.3
D	60 - 66%	1
F	0 - 59%	0

Other Grades

I/Incompletes: At the discretion of the instructor, a student may be assigned a temporary grade of incomplete (I) to allow the student more time to complete missing coursework or to take a required exam. Upon completion of the work or exam, the earned grade replaces the grade of "I" and is calculated into the grade average for the level and for the CGPA. If the missing work or exam is not completed within two weeks from the last day of the course, a grade of "F" will be assigned and computed into the final grade average for the course and into the CGPA.

TR/Transfer: A grade of TR is assigned for a student's successful transfer of credits earned from an accredited institution. A grade of TR is not calculated in the CGPA but will be included in both credits attempted and completed hours for completion rate.

W/Withdraw: A student who withdraws from the institution after the drop/add period but before the mid-point (50% or half-way point) of a course will be assigned a grade of W for the course. The W grade is not included in the calculation of the CGPA but will be considered attempted but not earned hours for completion rate.

W/Withdraw Passing: A student who withdraws from the institution after the mid-point of a course and who had earned a passing grade by the time of the withdrawal will be assigned a grade of WP for the course. The WP grade is not included in the calculation of the CGPA but will be considered attempted but not earned hours for completion rate.

WF/Withdraw Failing: A student who stops attending after the mid-point of a course and or who withdraws after the mid-point of a course and who has earned a failing grade by the time of the withdrawal will be assigned a grade of WF for the course. The WF grade is not included in the calculation of the CGPA but will be considered attempted but not earned hours for completion rate.

Prerequisite and Core Courses: Students must earn a grade of C (2.0) to successfully complete prerequisite courses and core fashion courses. Any grade lower than a C (2.0) will require the course to be retaken.

Course Substitution: Istituto Marangoni Miami may, on rare occasion, allow a student to substitute a course in their program of study for another similar course. The student should request a course substitution in writing with the Academic Leadership. The request will be considered, and the student will be notified of the decision in writing. The College reserves the right to initiate a course substitution. For more information, please see the Academic Leadership.

Repeat Courses: Students may repeat courses as required. Courses that are repeated are included in the calculation of both attempted and earned hours for the completion rate. The final grade earned will be included in the CGPA. A student who has

successfully completed a course but wishes to improve the grade received in the course, may also repeat the course. If the course is repeated, the grade earned for the last time the course is taken replaces the previous grade when the overall GPA is calculated. All attempts will remain on the academic record.

Grade Point Average (GPA)

Each letter grade has a point value. To compute the grade point value for a course, multiply the grade point value by the number of credit hours. For example, a "B" in a 3- credit hour course is equal to 9 points. To calculate a GPA, add the total grade point values for all courses and divide that figure by the total number of credit hours attempted.

Grade Appeal Procedures

Istituto Marangoni Miami has a Grades Committee to address requests for revision of academic grade(s). This Grades Committee consists of the Director and two instructors. The Grades Committee members are proposed every semester by the Director and approved by the President. The Committee establishes its internal decision-making procedure that will be made public.

The instructor responsible for the course is the only person who may make a grade change and he or she must notify the Registration Department when and if the change is made. When a student appeals a grade, the student will provide the faculty member with a copy of all petitions. A challenge to a grade received in a course, comprehensive examination, or other graduation requirement will be considered only when the student alleges that the grade received reflects other than appropriate academic criteria, that is, achievement and proficiency in the subject matter as stated in the course syllabus.

A student who deems it appropriate to challenge a grade will proceed as follows:

- If the grade challenged is in a course, the student will first discuss the matter with the instructor teaching the course in an effort to resolve the grievance informally.
- If the grievance is not settled, the student may then file the Grade Appeal Form with the Director.
- The form must be filed no later than ninety (90) calendar days after the date on which the grade was due in the Registrar's Office.
- The Director will make an informal investigation, hearing both the student and the instructor, and attempt an informal reconciliation.
- The Director will render a decision within thirty (30) calendar days and inform the student and instructor in writing.
- If the student wishes to appeal the decision of the Director, he or she may request that the Grades Committee investigate the decision.
- The Grades Committee will make a formal investigation, hearing both the student and instructor.
- The Committee will reach a decision within thirty (30) calendar days and notify the student, the instructor, and the Director in writing.
- The decision will be either that the grade will stand, or that the faculty member will change the grade as recommended by the Grades Committee.
- The student and/or the faculty member may appeal the decision of the Grades Committee to the Director no later than five (5) working days after the Committee's decision.

The Director's decision shall be final.

GRADUATION POLICY

To graduate, a student must meet all the following:

- Maintain at least a 2.0 GPA.
- Successfully completed all the required coursework for their major; and
- Satisfied all their financial obligations to Istituto Marangoni Miami.

The Student Services Office will provide students with a diploma upon satisfactory completion of the program and graduation requirements.

SYLLABI AND STUDENT EVALUATION

For every course offered at Istituto Marangoni Miami, the professor is to provide to the students at the beginning of the course a course syllabus that contains the following written information: (i) the method of evaluation and (ii) course requirements and value towards the final grade.

DEADLINE EXTENSION POLICY

Deadline extensions for exams, projects and assignments are not to be granted unless there is an exceptional factor involved. Any student work accepted after this date requires an explanation or documentation of the exceptional factor involved.

SAVING WORK

It is the student's responsibility to save his or her work. The student should save and verify multiple copies prior to leaving the classroom. The teacher is in no way responsible for work saved on the hard drives, nor is he or she required to give an extension on work improperly saved. Local and network drives at the University, including all computers in the labs, will be purged regularly and should never be used by students for long-term storage. These drives are available for student use during class and lab sessions, but all data will be deleted on a daily basis.

Students are expected to backup all work. Loss, theft, and computer failure are not acceptable excuses for not saving work.

FINAL SHOW – REGULATIONS AND SELECTION

Selection of students to participate in any final fashion show or degree show is limited and cannot be guaranteed (menswear / womenswear fashion and accessories collections). A committee made up of the School Director, Academic Leadership, Program Leader, One faculty member and up to 2 external advisers will make the selections during the final term.

SATISFACTORY ACADEMIC PROGRESS (SAP) POLICY**SAP Definition**

Each student enrolled must demonstrate that he or she is making satisfactory academic progress toward the completion of his or her chosen program of study. The criteria that each student must meet to qualify as making “Satisfactory Academic Progress” are defined below. A student who is failing to meet this criterion at any point outlined below will not meet the standard of “Satisfactory Academic Progress”. Any of three remedies may be applied if a student is not making Satisfactory Academic Progress. These are as follows: academic warning, academic probation and/or dismissal from the program of study.

Academic Warning: Students not meeting qualitative or quantitative measures at the end of a semester will be placed on academic warning for one semester and will receive written notification from the Director or Education through their student email. A student may continue with their enrollment while on academic warning. If after the warning semester, the student succeeds and meets all SAP measures, they will be removed from academic warning. If after the warning semester, the student fails to meet any SAP measurement, they will be placed on academic probation.

Academic Probation: A student will be placed on academic probation if they do not meet SAP requirements at the end of the academic warning semester. The student must meet with the Academic Leadership. If after the probation semester, the student succeeds and meets all SAP measures, they will be removed from academic probation. If the student fails to meet any SAP measurement, they will be academically dismissed from the program of enrollment. Once dismissed, the student may appeal the decision directly to the Director of Academics. If a student is dismissed, they may appeal the decision.

The definition of Satisfactory Academic Progress has both qualitative (GPA and completion rate) and quantitative criteria (maximum time frame) that must be met. The student must meet both of these sets of criteria to make Satisfactory Academic Progress. Unmet satisfactory academic progress also affects scholarship eligibility.

Grade Point Average: A student must meet an overall cumulative grade point average at the end of each semester. The minimum cumulative GPA requirement depends on the student’s academic level (undergraduate or graduate). The minimum requirements are outlined in the chart below.

Completion Rate: A completion rate is the total number of credit hours successfully completed divided by the total number of credit hours attempted. Credits counted in the completion are not only courses taken but courses that are transferred into the program. The minimum requirements depend on the student’s academic level and are outlined below.

Maximum Time Frame: The published length of an academic program and the number of credit hours attempted is the measure of maximum time frame. A student is expected to complete a degree program within a certain time frame. Courses counted in maximum time frame calculation are not only courses taken but courses transferred into the program. For both undergraduate and graduate programs the maximum time frame cannot exceed 150% of the published length of the program.

Undergraduate Programs		Graduate Programs		
Academic Programs & Levels	Associate and bachelor’s Degrees			Master’s Degree
Total Credit Hours Attempted	1-15	16-30	31 - above	1-above
Required Completion Rate	66.7%	66.7%	66.7%	66.7%
Minimum Cumulated Grade Point Average	1.75	1.85	2.0	3.0
Maximum Time Frame	150% of the specific degree programs published length			150% of the specific degree programs published length

Change of Program and SAP

Students who contemplate a change from one program to another should discuss this possibility with the Academic Leadership to determine the effect such a change would make on the student’s satisfactory academic progress. If a student changes his/her program only the semester credit hours that are common to both programs will be accepted toward the new program. All credits attempted and earned that are counted toward the new program will be used for satisfactory academic progress calculations.

Additional Program and SAP

Students who wish to enroll in an additional program must apply for admission. Upon acceptance, all courses previously attempted that are common to the additional program will be calculated toward SAP requirements.

Withdrawal from a Course and SAP

If the student withdraws from a course after the drop/add period, they will receive a withdrawn grade in the course as indicated below. The last day of physical attendance determines how the grades are recorded for the semester. If the last day

of attendance is within the first half of the semester, a grade of “W” is given. If the last day of attendance is within the second half of the semester, the student will receive a “WP” if their grade calculation is passing or a “WF” if their grade calculation is failing. The grade of “W” “WP” and “WF” has no effect on the student’s cumulative GPA but will be considered as attempted hours and calculated toward SAP requirements.

Readmission after SAP Dismissal

If the student was not making satisfactory academic progress in his or her program of study as of the last semester enrolled, the student will not be readmitted into the same program. Readmission into a different program will not be accepted, unless the student makes an appeal in writing concerning the institution’s determination to the Academic Leadership (as provided below in the Appeal section) and the Academic Leadership grants the student’s appeal. The Academic Leadership will consider mitigating circumstances in addressing the appeal as well as the student’s ability to successfully complete the new program. If the Academic Leadership grants the appeal, then the student will be placed on academic probation during the student’s next semester of attendance in any program of study.

If the student is given permission for readmission, the student must agree in writing to the terms for readmission outlined by the institution and must execute a new Enrollment Agreement. The student must also pay all current tuition, fees and any other costs associated with the student’s program of study.

Appealing a Determination of Unsatisfactory Academic Progress

If it is determined that a student is failing to make satisfactory academic progress in his or her program of study, the student may appeal the determination in writing to the Academic Leadership within 5 business days of notification of SAP status. The student’s appeal must provide details concerning the circumstances affecting the student’s academic progress (such as serious illness or injury befalling the student, the death of a close relative of the student or any other mitigating circumstances) that may influence the institution’s decision to terminate or not to readmit the student into his or her program of study.

The Academic Leadership will consider the appeal to determine whether the mitigating circumstances explained in the student’s written appeal are mitigating circumstances that will allow the student to remain enrolled in or readmitted to another program of study despite the student’s failure to conform to the requirements of Satisfactory Academic Progress. The determination of the student’s appeal will be made by the discretion of the Academic Leadership in conformity to the principles and standards described in this catalog and will be final and binding on the student. If the Academic Leadership decides in favor of the student’s appeal, the student will be placed either on academic probation during the student’s next semester of attendance in a program of study.

Veterans and Dependent Students and SAP.

Maximum timeframe is not applicable to veteran and dependent students for determination of satisfactory academic progress. A student must be terminated from VA educational benefits when not meeting satisfactory standards of progress. The student may be re certified only after achieving satisfactory standards of progress.

Unless the complainant signs it, it will be an informal complaint.

Istituto Marangoni Miami will investigate all complaints. Investigations may include interviews, preparation of statements, reports with summary of the investigation, description of investigation process, findings and recommendations. Reports will be kept confidential.

The School may attempt conciliation between the parties involved. If conciliation is not achieved, the designated official from the school will issue a formal report. Upon this final report, corrective action, including sanctions, will be considered and implemented.

Claims to be found frivolous will result in appropriate sanctions against the complainant, as determined by the program leaders. Possible sanctions may include but are not limited to written reprimands on the student or employee's record, restriction or loss of privileges, and suspension. Complaints may be withdrawn, but Istituto Marangoni Miami reserves the right to continue investigating as it was made aware of a possible act of discrimination. Any attempt(s) at retaliation shall be treated as a separate allegation of discrimination.

By the time a determination of appropriate disciplinary action or resolution has been reached, all parties will have been contacted and circumstances will have been fully evaluated. However, individuals have five days to appeal determination of sanctions. Such appeals shall be directed to the school director which will re-evaluate the determination as deemed appropriate.

STUDENT RECORDS

Students should be aware that student records submitted to the School become the property of the School and shall not be released to third parties. The school reserves the right to use the records, as it deems appropriate. A hold shall be placed on the records of any student that owes an obligation to the School. A student may not register or receive a transcript from the School until the obligation is paid in full to the School and the hold is properly removed. Removal of a hold may take approximately two (2) business days.

Maintenance of Student Records

Official academic records are maintained in the Registration Department. Included are admission applications and associated documentation, the registration forms for each semester in residence; the records of grades and credits received in courses at this institution or accepted here from other institutions; and other documents directly relating to the student's academic progress and status.

The School will release the transcript to the student. Transcript requests may be made in person or by mail. The School will charge US \$25.00 for official transcripts, and US \$5.00 per non-official transcript. Please contact the Student Services Office for further questions regarding a student's rights to access his/her records.

Amendment of Records

A student who believes that information contained in his or her records is inaccurate, misleading, or in violation of the privacy or other rights of the student, may request that the Istituto Marangoni Miami official who maintains the records amend them. The official who maintains the records has a responsibility to consult with appropriate officials of the School for further determination or confirmation. If the School decides to refuse to amend the education records of the student in accordance with the request, it will so inform the student of the refusal, and advise the student of the right to a hearing.

Hearing Procedures

Should the request for a change in the student's records be denied, the student may appeal the decision to the School Director within thirty (30) days and ask for a hearing. School Director shall designate a hearing committee, which will include one administrator other than the one who has denied the request, the Academic Leadership and two faculty members of Istituto Marangoni Miami.

The decision of the Hearing Committee shall be final, except that final appeal to the School Director of the School remains open. The challenge to be considered in such hearings may extend only to the material in the respective School file, e.g., it may extend to the correct recording of a grade, but not to the appropriateness of the grade.

Students, dissatisfied with the results of a hearing may place a statement in the education record in question commenting upon the information therein, and/or setting forth any reason for disagreement with the School's decision not to correct or amend the record. Such a statement shall become a part of the information contained in the education record and will be disclosed with it.

In accordance with the Equal Employment Opportunity Commission's published guidelines, unwelcome sexual advances, unwanted requests for favors of a sexual nature, and any other unwanted verbal or physical conduct of a sexual nature are considered sexual harassment if:

Disciplinary Standings

A student's status with regard to discipline is regulated by the following definitions, which are reflected in each student's record kept at the Registration Department.

Good Standing. The status of good standing indicates that a student has been duly enrolled in the School and is eligible to participate in all activities of the School. A student is presumed to be in good standing unless the student engages in an established misconduct.

Warning. This status indicates that a student has been through the judicial process due to the seriousness of his/her conduct and has been cautioned that further behavior of the same or similar type will be cause for further disciplinary action by Istituto Marangoni Miami.

Disciplinary Probation. This status indicates that the student's behavior has raised serious questions concerning the student's status as a member of the School community. The student will be given a stated period during which his/her conduct will establish whether he/she is to be returned to good standing by having met definite requirements in behavior or whether he/she is to be suspended or dismissed from Istituto Marangoni Miami. The Academic Leadership may impose the sanction of disciplinary probation on a student.

A statement of offense and decision will be placed in the student's file in the Registration Department. If while on disciplinary probation a student is found responsible for a further infraction of School policies/regulations, the student will be subject to the possibility of suspension/expulsion from Istituto Marangoni Miami.

Suspension. The status of suspension indicates the suspension/separation of the student from Istituto Marangoni Miami for a stated time due to serious or repeated violations of the rules or for undesirable conduct on the part of the student. A student will be permitted to re-register for courses after a semester probation period. The Academic Leadership may impose suspension. Statement of offense and decision will be placed in the student's file in the Registration Department.

Expulsion. The School Director reserves the right to expel a student in cases of serious infraction of disciplinary rules. This status, the most serious disciplinary action taken by the School, indicates the immediate, involuntary and permanent separation of a student from Istituto Marangoni Miami because of established gross misconduct on the part of a student. After notice of expulsion, a student must leave the campus immediately. The expelled student does not have the privilege to apply for readmission to Istituto Marangoni Miami. Statement of offense and decision will be placed in the student's file in the Registration Department. A student's transcript will include documentation of expulsion.

Appeals to Disciplinary Standings

A student may appeal any of the above decisions in writing to the Academic Leadership within 10 working days.

Disciplinary Records.

Istituto Marangoni Miami will retain disciplinary records for one year after graduation. The School reserves the right to keep records for a longer period of time if so, specified in the sanction letter.

STUDENT GRIEVANCE PROCEDURE

If any student deems it necessary to file a grievance against an Istituto Marangoni Miami employee, he or she must report such incident to the Academic Service & Student Support Office. Every effort will be made to protect the privacy of any parties involved. The student is entitled and encouraged to have an informal discussion with the Academic Leadership as a first step. If an informal conversation does not result in a satisfactory resolution, or if you are not comfortable speaking about the matter with the Academic Leadership, then the student should discuss the situation with the School Director. In cases of discrimination or sexual harassment, Istituto Marangoni Miami encourages the student to go directly to the School Director. Any complaint that is not in writing, that is, a verbal complaint, is considered an informal complaint.

After an informal discussion, if the student wishes to file a formal grievance, he/she may submit such in writing to the School Director. However, before filing a formal charge, the complaining party should first make a good faith effort to meet and confer with the party against whom he or she has a complaint in an effort to resolve the matter. The formal report should contain a statement of the problem or complaint, the facts and details of the situation, pertinent dates and the names and positions of the parties involved. The grievance must be signed and dated. Also, the student may withdraw a complaint at any time during the complaint process. A withdrawal must be made in writing to the School Director.

Upon receipt of a written formal complaint by a student, the School Director will consider the complaint. After such an investigation, the School Director will make a determination as to whether the grievance has merit as alleged. If the alleged grievance is deemed justified, Istituto Marangoni Miami will take whatever steps it deems appropriate to correct any grievance suffered by the complaining student.

Istituto Marangoni Miami recognizes that students may have legitimate complaints relating to their course, the services or facilities provided, other students, or the staff and it will take such complaints seriously and deal with them in confidence and without recrimination. All students have also a right to appeal to review their results.

Please, note that all students should access their IM email account on a regular basis, as it will be used to communicate important information regarding their course, tuition fees, award ceremonies and other matters, including Exceptional Factors claims, Complaints, and appeals.

Istituto Marangoni Miami wants students to experience good learning opportunities and services. It expects that they will inform academic staff when any aspect of the learning opportunities or services it provides do not match what they were led to believe they would experience. The School views complaints by students as important feedback: when things are not right it encourages students to complain constructively, so that it can remedy matters as quickly as possible, so that the School can enhance what it offers students and so that the effects on students' learning and progress are minimized.

Grievance Procedure Response Time Frame:
30 days from Initial Investigation
60 days for final determination.

Students who feel a grievance is unresolved may refer their grievance to:
Executive Director, Commission for Independent Education
325 West Gaines Street, Suite #1414
Tallahassee, FL 32399- 0400
850.245.3200 or toll free at 888.224.6684

Remedies

If it is determined that such grievance has appropriate support, the persons or departments that are responsible for such violation will be dealt with in an appropriate manner by the supervisors or directors of such persons or programs, in accordance with applicable provisions, if any, of contracts, employment regulations, faculty and employee handbooks, or the like.

Review by a Representative Committee

The student may appeal this determination to an appeals committee consisting of members of the administration, faculty and student body. This committee has the right to review the determinations and to reverse or amend such decisions.

CAMPUS SAFETY AND SECURITY

The school has the utmost concern for the safety of each student, faculty member, and staff. All students, employees, and visitors should promptly report crimes in progress, accidents, and any other emergencies to local law enforcement by dialing 911.

Digital Badge

Students are provided a digital badge application during the orientation session. This digital badge app is downloaded on the student's personal mobile phone and will be the student's method to access the School. Students are required to check in at the reception upon entering the building and upon departure, using the bar code readers provided.

Should the student have problems with their digital badge, reception staff will allow access only after manual registration and presentation of a valid photo identification card.

In order to keep students, their belongings and the school's resources safe at all times. Istituto Marangoni Miami requests that entry is not allowed to anyone other than Istituto Marangoni students and staff, unless expressed permission has been granted by school staff

HEALTH AND SAFETY

The school acknowledges that it is its duty to ensure, so far as reasonably practicable, the health, safety and welfare of the students, staff, and anyone else who comes to the school. It is the policy of the school to provide and maintain, as far as reasonably practical, a working environment that is safe and without risk to health.

Consequently, the school will, when reasonably practical:

1. Provide and maintain safe and healthy working conditions.
2. Provide and maintain safe machinery.
3. Provide information, training and supervision to enable staff and students to perform their work safely.
4. Maintain high standards of health, safety and welfare in all School activities.

TOBACCO & ELECTRONIC CIGARETTE POLICY

The School wants to promote a healthful and clean work environment for students, employees, staff and visitors. In accordance with Florida's Clean Air Act (FCIAA), the use of tobacco, smoking, and electronic cigarettes, is prohibited in all School buildings. This includes, but is not limited to, any classroom, laboratory, library, faculty office, administrative offices, dining facility, or any other facility owned or controlled by the School. School administrators may subject to disciplinary action as well as any students, faculty members, or staff found in violation of this policy.

STUDENT & CAREER SERVICES

Under the supervision of the Academic Leadership, the School student services are in place to assist students with their various needs. The goal of effective and worthwhile student services is to assist students and to directly involve the students in the affairs of the institution, fostering a sense of community among students, faculty and administration.

ACADEMIC ADVISING

As previously mentioned, Istituto Marangoni Miami is an institution that emphasizes not only academic and professional growth, but also personal development and the nurturing of each student. Coordinators serve as liaisons between students and the faculty/administration. It is the role of the Student Service Officers and Program Leaders to advise and mentor students with regards to academic and professional decisions. In addition, each faculty member is receptive to developing a professional, yet personal relationship with each student. As such, the students should feel comfortable, if the need arises, to seek advice of a faculty member with regards to academic and professional matters.

GRADUATE EMPLOYMENT/CAREER SERVICES

Istituto Marangoni Miami Career Service Office provides career support for students at undergraduate and graduate level. The purpose of the Career Service is to bridge the gap between Istituto Marangoni Miami and the job market. To do so, mentoring and counseling activities are organized throughout the academic year. These comprise of workshop to be delivered within the classrooms, and individual meetings with eligible students.

During these individual meetings, resumes/CVs and portfolios are revised and students are encouraged to talk about their career goals and expectations, while being advised on professional paths and on strategies to tackle the working world. In order to further enhance job market knowledge, the Career Service organizes seminars and round table discussions with fashion professionals, HR managers and head-hunters, usually on specific topics such as: career paths, personnel research methods and job figures. Internship opportunities may be offered to graduates.

Upon successful completion of studies, the Career Service supports alumni in the search for opportunities and recruitment initiatives for one year after their graduation. Companies addressing their recruitment needs to Istituto Marangoni Miami Career Service are offered a pre-selection of profiles that are suitable for their vacancies.

The Career Service also researches and develops additional contacts within the working world, for collaborations and resume/CV proposals to companies.

While the school will assist in job search, Istituto Marangoni Miami make no guarantee, expressed or implied, of future employment.

STUDENTS WITH DISABILITIES

Istituto Marangoni Miami does not discriminate on the basis of disability in the admission or access to, or operations of, its programs or activities.

This notice is provided as required by Title II of the Americans with Disabilities Act of 1990. Accommodations are granted on a case-by-case basis for those students who are eligible by showing sufficient documentation of disability in compliance with all Federal and State Laws. The school administrators will handle provisions of accommodations for students with disabilities in compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990.

Reasonable and specific accommodations are developed with each student based on current documentation from an appropriate licensed professional. All accommodations are individualized, flexible, and confidential based on the nature of the disability and the academic environment.

The school currently provides handicap access in its classrooms and facilities. Requests for other accommodations must be made to the Academic Leadership. On occasion, the Academic Leadership may work together with the School Director to resolve requests concerning academic adjustments.

With the goal of promoting integration and equality among the student population, the School provides individual assistance to students with documented disabilities. Disclosure of disability is voluntary. Students with disabilities must request adjustments or other accommodations prior to the admissions/enrollment time frame of each semester and provide appropriate documentation to the Academic Leadership. Documentation received may be questioned if proper credentials are not provided, or if the diagnosis is without supporting data. The School maintains all records as confidential.

Upon review of the documentation, the Academic Leadership will develop a letter of acknowledgement of the disability and the appropriate accommodations that will be provided to the student. The Academic Leadership will contact the student's professors to notify them of the authorized adjustments. In case the adjustments do not work, the student must notify Academic Leadership in order to ensure timely arrangements.

Students that require extra time for testing may take examinations under the supervision of the Academic Leadership, in agreement with the course professor. Students should allow two to three weeks for processing of additional aids or educational materials. The School provides these auxiliary aids and services on an individual basis. These aids and services may include,

but are not limited to registration assistance, approval of reduced course load, letters to instructors outlining accommodation needs, note takers, testing accommodations, classroom and other facility accommodations, and assistance with accessibility issues.

Istituto Marangoni Miami will take into account the dates of requests for adjustments in the evaluation of grade appeals. Students should keep in mind that arrangements are provided to aid in the completion of course requirements, not to provide excuses for missing assignments or other coursework. All students may appeal grades. For this process, please refer to Procedure for Grade Appeals.

Appeal Disability Documentation Decision

The student may appeal any decision related to a requested accommodation or auxiliary aid to the Academic Leadership who will respond to the students appeal not later than ten (10) days upon submission of a student's appeal. Such an appeal must be made in writing to the Academic Leadership not later than ten (10) days following the decision as to a requested accommodation or aid. Any position paper, brief, medical documentation or other written material, which the student desires to be reviewed by the Academic Leadership, shall be submitted together with the notice of appeal. The Academic Leadership shall investigate and respond to the notice of appeal in writing, stating the decision, together with the reasons for either affirming or reversing the previous decision as to an accommodation or auxiliary aid.

REFUND POLICY

Refund if Istituto Marangoni Rejects an Applicant.

Istituto Marangoni Miami will notify the student, in writing, of his or her acceptance or rejection. In the event that an applicant is rejected by the School, all tuition, fees, and other charges will be reversed, and any pre-payment of tuition and fees (less nonrefundable application fee) will be refunded. Refunds will be made within 30 days of termination of the student's enrollment or receipt of a Cancellation Notice from the student.

Refund Policy after the Start of Classes.

Istituto Marangoni Miami charges for tuition by the semester and has established an Add/Drop Period, which is one week (five scheduled class days) from the first day of the semester. The Add/Drop Period is published on the Academic Calendar. After the semester had started, the following refund policy applies:

During Add/Drop Period. If a student either drops or withdraws from a course(s) or the program during the Add/Drop period, the Student will receive a refund for the tuition paid for that semester's course(s) dropped. The student is required to properly notify the Student Financial Services Office using the appropriate form to establish the date that the student withdrew from the course(s).

After Add/Drop Period Students who withdraw from a course(s) or the program after 20% of the course has passed will not receive a refund of any tuition paid unless the cancellation takes place due to exceptional circumstances, such as illness with a doctor's excuse, military deployment, or death of an immediate family member. The 20% threshold is at the end of the third week of the semester/course.

If a student withdraws from a course(s) or the program after the add/drop period ends and before the 20% threshold of the semester/course the refund will be prorated based on last date of attendance. The following formula will be used to calculate prorated refunds: Total course credits x per credit hour fee = total course cost / 15 weeks = per week cost multiplied by total weeks attended based on last date of attendance.

Last Date of Attendance/Termination Date: When calculating the refund due to a student, the last date of actual attendance by the student is used in the calculation unless earlier written notice was received.

Veterans benefits will be refunded in accordance with the above policy.
